

**G. PULLA REDDY ENGINEERING COLLEGE(AUTONOMOUS)KURNOOL**

**IEEE STUDENT BRANCH (STB 15721)**

**Date: 16/12/16**

**Sub: Report on Guest Lecture activity conducted by COM SOC , IT & MTT societies - Reg.**

The invention of Transistor on 17<sup>th</sup> December 1947 paved the way for discovering many VLSI circuits. Transistor means transfer of resistance that leads to signal amplification. Hence the name. After the invention of transistor, VLSI technology came into existence from the year 1980.

In view of this, under the activities of IEEE COMSOC,IT and MTT societies, a memorial Guest Lecture was held on 16<sup>th</sup> December 2016 for all ECE & EEE students. The theme was “**INVENTION OF TRANSISTOR AND THE VLSI REVOLUTION ERA**”. **DR. G. ERANNA** was the speaker of the lecture. Total 88 students have attended this guest lecture and the event was successfully completed. The photo snaps of this event are :
