SUB: REPORT FOR TECH BUZZ-REG

Focusing on the important aspects like technical knowledge, communication and spontaneity, **IEEE WIE AG** of the college conducted an event **TECH BUZZ** which involved two rounds in it as Technical quiz and Jam session on 26-09-2016 from 4.15PM to 5.15PM. 12 student members participated in this event.

The objective of the event was to enhance the technical knowledge of the students and to improve the spontaneous response and to emerge the phrases that are heard in head. The informational interations lead to happy accidents, the unplanned and unexpected exchange that crates impact. These sessions involve in connecting past experiences and present intuition, trying out new ideas. These type of events will lead to improvise the technical knowledge in the real world applications and innovations in engineering. The prize winners for this event are **LASYA** and **LIKITHA** of 2nd ECE.

48 Student participated in this event out of which 32 are IEEE Student members.
