Sub: Report on Solar Plant visit, Kurnool G.Pullareddy Engineering College.

IEEE Student Branch organized solar plant visit under Power and Energy Society Chapter. The main objective of this visit is to provide the students with an opportunity to learn practically through interaction and also that helps them in gaining the knowledge regarding an organization structure and its functionality. A total of 124 students and 2 Professionals visited the plant.

Description of the visit:

Before the visit of the solar plant the entire 124 students were explained about the solar plant ,in what way the solar energy converted into electrical energy ,what are the equipment used ,ranges of materials, capacity, generation of plant ,advantages with compare with remaining generating stations and drawbacks etc ., all thing were explained by G. Sreenivasa Reddy and G. Haritha Assistant professors ,at GPREC about 45min .

Later on we all are taken to the solar plant and there the faculties were explained by practically what they were taught in the theoretical class. The total 124 students were divided into two batches and each batch was explained practically by G. Sreenivasa Reddy and G. Haritha. The students were involved deeply into the subjects and clarified their doubts by approaching the faculty effectively.

Finally the visit concluded by thanking Sreenivasa Reddy and G. Haritha for spending their valuable time with the students in gaining the practical knowledge about the solar plant. And students were thankful to the branch counsellor for conducting the event for the students and thank full to college for supporting the event.
