Sub: REPORT FOR IEEE WIE GROUP DISCUSSION reg...

We even in this 21st century, we still see that men run the world even though many women have the skills to lead. Today in the world there are more external barriers for women in attaining positions of authority and influence. Though there are many internal barriers, women must rise to the challenges. To make women stand as global leaders, it is important to understand the approaches that women use to lead effectively as global leaders, such as utilising multiple intelligences and authentic leadership. Women are also more likely use different leadership styles, focus on inclusiveness, teams, and cooperation, be more nurturing and focus on developing others, make more ethical decisions and have more integrity. In this regard IEEE WIE AG of our college has conducted a Group discussion for girl students on the topic of “Women in leadership challenges & strategies on 24-02-2016 from 4:15 pm to 5:15 pm. 21 students from all the branches participated in this event. The main purpose of this event is to create awareness of women strength in all fields and their leadership qualities and to discuss the challenges facing women in global leadership. The prize winners for this event are 1st prize Ms M.Susma (III-ME) & 2nd prize Ms D.Kavya (II-ECE).
