

G. Pulla Reddy Engineering College (Autonomous) : Kurnool

IEEE Student Branch (STB 15721)

Date:21-01-2016

Sub: Awareness Programme on IEEE and its benefits for students.

Co-curricular pursuits are essential to the educational programme and whether or not they carry credits in the curriculum. As the New Year was started with new executive committee, our IEEE student branch organised an awareness programme on IEEE and its benefits for students.

The programme started with a brief talk by the branch councillor Mr. C. Harinath Reddy on how IEEE can help any student to become an young professional and then IEEE Student chair Ms. Suraiah Thaseen gave a webinar presentation on **“Awareness on IEEE and its benefits”**. Then there was an interactive session between the students and IEEE student chair. Later, One of the Student Network Representative Mr. Sheshunath gave some suggestions to the students.

Few snaps are given below:

The final conclusion was given by IEEE student chair Ms. Suraiah Thaseen.
